

Bibliografia:

Studi clinici e comparativi:

1. **Enhanced absorption of boswellic acids by a lecithin delivery form (Phytosome®) of Boswellia extract** - Jan Husch a, Janine Bohnet a, Gert Fricker b, Carsten Skarke c, Christian Artaria d, Giovanni Appendino e, Manfred Schubert-Zsilavecza, t, Mona Abdei-Tawab Nun J. 2016 .Ia n 5;15:1. cb i: 10.1186/s12937-015-0115-z.
2. **Benefits of antioxidant supplements for knee osteoarthritis: rationale and reality** - Gmer AK1, Samson SE2. J Mol Neurosci. 2016 May;S9(1):58-67. doi: 10.1007/s12031-016-0734-7. Epub 2016 Mar 16.
3. **Clinical evaluation of a formulation containing Curcuma longa and Boswellia serrata extracts in the management of knee osteoarthritis** - KizhakkedaTh R1. Phyrroher Res. 2011 Sep; 25el:1375-80. doi: 10.1002/pn J36S. Epub 2011 Feb 24.
4. **Antioxidant and Ex Vivo Immunoregulatory Properties of Boswellia serrata Extracts** - Beghelli D1, Isani G2, Roncada P2, Andreani G2, Bimmi O3, Benocchi M2, Lupidi G4, Alunno A3. Numem:s. 2016 Nov 21;8(11). pii: E745.
5. **Curcumin and Boswellia serrata modulate the Glyco-Oxidative Status and Lipo-Oxidation in Master Athletes.** - Chillelli NC1, Ragazzi E2, Ialem:ini R3, Cosma C4, Ferras:so S5, Lapolla A6, San:oreG7
6. **Inhibition of lipoxygenase 1 by phosphatidylcholine micelles and curcumin** - Began G1, Sudharshan E, Appu Rao AG. Adv Ex p Med Biol. 2007; 595213-26.
7. **Cyclooxygenase-2 inhibitors in ginger (Zingiber officinale)** - Richald B. van Breemen, * Yi Tao, and Wenkui Li
8. **Ginger: an herbal medicinal product with broad anti-inflammatory actions** - Grzanna R1, Lindmalk L. Frondoza CG.
9. **Individually and Combined Water-Based Exercise With Ginger Supplement on Systemic Inflammation and Metabolic Syndrome Indices, Among the Obese Women With Breast Neoplasms** - Karimi N1, Dabidi lbshan V1, FaThi Bayariyani Z1. Thromb Res. 2001 Sep 1;103(5):387-97.
10. **Ginger prevents Th2-mediated immune responses in a mouse model of airway inflammation.** Ahui ML 1, Champy P, Ramadan A, Pham Van L. A~aujo L. Brou André K. Diem s. Damorre D, Kati- Coulibaly s. Offoumou MA, Dy M, Thieblemom N. Herbelin A.
11. **Ginger and Zingerone Ameliorate Lipopolysaccharide-Induced Acute Systemic Inflammation in Mice, Assessed by Nuclear Factor- κ B Bioluminescent Imaging.** Hslang CY1, Cheng HM2, Lo HY3, Li CC4, Chou PC2, Lee YC5, Ho TY3,6. NuTriTi:> n. 2015 May;31 (5):703-7. doi: 10.1016/j.nur.2014.11.020. Epub 2014 Dec 20. J Nar Prod. 2009 May 22;72(5):950-3. doi: 10.1021/np800555y.
12. **Efficacy and tolerability of ginger (Zingiber officinale) in patients of osteoarthritis of knee.** - Paramdeep G. Celi Biochem Funcr. 2014 Jan; 32(1):106-14. doi: 10.1002/cbf.2979. Epub 2013 May 15.
13. **Curcumin suppression of cytokine release and cytokine storm. A potential therapy for patients with Ebola and other severe viral infections** - Soldilb PP1, Helson L2. J Celi Bi:>chem. 2012 ec;113(12):36S3-62. cb i: 10.1002/jcb.24238.
14. **Curcumin induces apoptosis and inhibits prostaglandin E(2) production in synovial fibroblasts of patients with rheumatoid arthritis** - ParkC1, Moon DO, Choi IW, Choi BT, NamT J, RhuCH, Kwon TK LeeWH, KimGY, ChoiYH. Im Immunopharmacol. 2016 May 24; 38:1-7. doi: 10.1016/j.im:imp2016.05.015. [Epub ahead of print]
